

YW CAMP CLOVER

Facilities

FACILITIES

YW Camp Clover is located near Bamberg on a site owned by the Optimist Club of Kitchener-Waterloo. The site has a natural spring fed pond, a large field, a large wooded area and a cabin. YW Camp Clover offers a variety of traditional camp activities for campers. Campers are kept busy and will be happy, tired and full of experiences to share with you at the end of each day!

The pond at Camp Clover is a natural spring fed pond. The water is tested regularly to ensure quality for safe swimming. Campers who choose not to swim can play on the beach or participate in other waterfront activities. Sun umbrellas are used to provide shade.

A large cabin provides shelter during thunderstorms and is used by campers at lunch time.

YW Camp Clover is an old fashioned day camp. We do not have any indoor plumbing. Port-o-lets are used for bathroom facilities and portable hand washing stations with running water are provided.

Drinking water is available for campers to fill their water bottles.

Families are provided an opportunity to see camp and meet the staff at our annual Open House on Friday, May 31, from 12:30 to 4pm. Should you wish to see the camp or visit at another time during the summer, please make arrangements with the Camp Manager. It is important that staff are familiar with the arrangements of any adult on camp property.

YW Camp Clover Address:
1220 Moser Young Road, Wellesley
